

With budgets cuts for education and increased concern over security, it's time for solutions that save money, reduce overhead, and increase the communication between the school, faculty and parents.

W.A.R.N. Schools provides an easy to use, effective and affordable way for schools to reduce the costs associated with communication manually, and to dramatically improve the speed and content of notifications

With W.A.R.N. Schools, you can create and send personalized notifications to thousands of students and parents and to critical civil emergency services. There's no hardware or software to purchase, and training is easy.

W.A.R.N. Schools Communications Uses:

K-12 School to Home Notification:

- School Closed or Delayed – Weather
- Bus Transportation Issues
- Special Projects or Testing Dates
- Attendance and absentee notification
- Police, fire and emergency notification
- Parental notification of sick child
- Sports program scheduling announcements
- Substitute teacher notification

College or University Notification:

- School Weather, Holidays and Semester Term Breaks
- News Updates - Special Events
- Parental Issues Relevant to University Policies
- Increase knowledge of school policies and issues
- Parental notification of problem student issues
- Sports program and special events scheduling announcements
- Able to reach thousands of parents in multiple states with no long distance charges
- Privacy controls / industry proven SSL encryption keeps parental data safe

Thousands of students, faculty and staff, and family households, can be managed and notified in minutes using groups by class, building or campus. Search functions allow instant building of new groups by curriculum, zip code, district or other fields for specific notification needs.

K - 12 W.A.R.N. Schools Educational Benefits

- Raise Test Scores
- Increase Attendance
- Raise Student Accountability
- Increase Productivity of Staff

How K - 12 Schools Use W.A.R.N.

- Reduce truancy by notifying parents in real-time a child is absent.
- Improve community safety by instantly alerting parents to suspicious incidents or security-related issues.
- Aid emergency response drills and events.
- Raise parent participation through timely notice of school functions and events.
- Given the small size of some communities, rumors can surface quickly when there's an incident at the school. To prevent false or exaggerated accounts from spreading, a quickly implemented notification will inform parents precisely of what happened.

How Higher Education Uses W.A.R.N.

- Instantly alerting on-campus students, university employees and local public safety agencies to suspicious incidents or other security-related issues.
- Aid practice and real emergency evacuation drills by instantly and simultaneously informing students and employees.
- Reduce drop-out rates by notifying parents in real-time that a student needs assistance.
- Raise alumni - parent participation through timely communication with parents about upcoming school functions and events.
- Improve alumni and parental relationship with regular faculty progress reports.
- Inform everyone of unscheduled closes due to weather or other factors.
- Targeting of messages to desired devices: home phone, business with extension, mobile or cell phone, text devices or email.
- University employee notification and mobilization around key needs or issues.
- Operated using intuitive, secure, and reliable interface via the web or by touchtone phone.
- Multiple secure and protected departments allowed, so that Security, Operations, Administrative, Finance and other areas may import and maintain their own notification messages, groups, recipients and other data to meet their needs.
